

# HOW TO RECLAIM YOUR HEALTH AND LOSE THE WEIGHT FOR GOOD

---

TAKE A SECOND AND CLOSE YOUR EYES. PICTURE  
YOUR BEST SELF 6 MONTHS FROM NOW.  
WHAT ARE YOU DOING?  
WHO ARE YOU WITH?  
HOW DO YOU FEEL?

---

Maybe you can relate to our client, Jane.  
At one point she felt like she had it all; a successful  
career, thriving family, and fun social life.

But fast forward 8 years later and the pressure of family  
commitments, increased stressors at work and aging  
parents with medical conditions, and all her focus on  
health and happiness got pushed aside.

Almost like overnight, she felt her energy decrease, her  
appetite for processed foods increase, and the weight  
started to pile on.

## LET'S BE REAL: THE WEIGHT LOSS INDUSTRY IS NOISY

---

One guru tells you to eat fat all day, another one tells you to not even eat at all for a certain number of hours each day, and then your neighborhood girlfriends are selling you more “stuff” that frankly you aren’t even sure is safe.

Not to mention that the food industry continues to add more and more additives which are disrupting our metabolisms.

After getting some unfortunate news from her general practitioner about her annual lab test results, she knew she had to make a change.

- She could continue on this path and have to take daily medications for the rest of her life.
- She could try an extreme fad diet that seems to work for other people (but knowing that juice diets and calorie counting seemed like a temporary fix).
- Get in touch with a medical weight loss doctor.

# WHAT SHOULD YOU DO?

---

## Enter Med-Fit!!!

You need to understand YOUR body's unique way of burning calories or your own magic way of converting calories into energy. When you learn which foods (fuel) your body needs for optimal performance and nutrition, your metabolism will become automatic and you will finally be able to take the work out of dieting.

### RESULTS

Jane lost 130 lbs in 7 months thanks to the Med-Fit team. She finally made it out of the 200s for good and into "Onederland" (cute, right?).

### SHOW DID SHE DO IT?

Through proper medically guided diet and exercise plans. She has more energy and said she finally went hiking with her family instead of staying home like she has done in the past. She has been flooded with positive compliments, feedback and finally felt confident again.

And you know what?!

These are stories we hear from our clients **EVERY SINGLE DAY.**

## TAKE YOUR LEAP OF FAITH!!

With over 10 years of experience we know we can make that BEST SELF picture you envisioned a reality! Keep reading for the secret sauce
